

What Is Tribe?

Tribe has provided innovative and exciting programmes to Jewish youth for 14 years. Our mission of 'creating a future for our communities through engaging, educating and inspiring the next generation' has never been more important.

Tribe runs a variety of programmes and activities centrally and across US shuls and schools. These aim to inspire and enrich Tribe members' lives and help them on their Jewish journey. For more information about our activities visit about us on our website.

Involvement with Tribe begins with a baby gift-pack for new parents and continues in communities with children's services on Shabbat and Cheder. As they grow up, Tribe will entertain, educate and provide a whole range of activities for your children.

Once at primary school, Tribe supplements your child's Jewish studies lessons with the Tribe curriculum including the revolutionary Hebrew reading course, Aleph Champ, and extracurricular programmes such as 'Kosher Apprentice', 'Tishrei's got Talent' and more. Tribe also runs fun days out during the holidays and a host of Shabbatonim within the Jewish school network.

In secondary schools we provide support for special assemblies, extra-curricular activities and lunch and learns in both Jewish and non-Jewish schools. Similarly at Jewish secondary schools, Tribe provides educational support for enrichment programmes and lead assemblies.

Outside of school, Tribe hosts Shabbatonim throughout the year, ensuring children have a fun and spiritual Shabbat experience, and strengthening their connection with Tribe. Additionally, Tribe runs incredible summer programmes for children in Years 5-13, in the UK, Belgium, New York and Rwanda. There is also Tribe Israel Tour for those finishing Year 11. The tour gives participants a once in a lifetime opportunity to engage with the beauty and diversity of Israel. Whilst on tour, participants hike through mountains, snorkel in the Red Sea, as well as taking part in unforgettable Jewish experiences.

Youth directors work in local shuls to provide youth with educational and social events on Shabbat and after school.

Tribe Israel hosts activities for all British students on a gap year in Israel, throughout their year there. They hold an enjoyable welcome event, as well as an annual shabbaton. They also help to develop essential skills like public speaking and work with students on Israel Advocacy through the Tribe Learn 2 Lead programme. The Tribe Israel team is also there to help students with anything that crops up during the year, even if it's just for a chat. Tribe Israel ends the year in style with their

popular 'Closing the Gap' event, giving students the opportunity to spend time with people they will be sharing a university campus with.

Tribe Campus: For those going to University, Tribe Campus Recruiters are available with help with advice and events, which are often organised together with our key partner, University Jewish Chaplaincy and JSOCs (Jewish Societies). We organise some special events or Friday Night Dinners, and offer popular Birthright trips. There are also many opportunities to get involved as madrichim on a number of our summer programmes and throughout the year.
